

Webex Seminar – Key findings from the project and your chance to put questions to the project partners.

October 14th, 11:00am (CET)

Building AdVent

Findings from the project

11:00	<i>Introduction to the project</i>	Andrew Cripps
11:10	<i>Classification and description of HVAC systems</i>	Per Heiselberg
11:30	<i>Measurement and assessment of ventilation systems' performance and indoor climate</i>	Jarek Kurnitski
11:50	<i>Energy and ventilation performance of monitored buildings</i>	Peter Warren
12:10	<i>Potential for replication of advanced ventilation systems</i>	Jose Alexander
12:30	<i>Conclusions</i>	Andrew Cripps
13:00	Close	

All times are CET

The Building AdVent project disseminates design information on good practice in low energy ventilation systems through the study of 18 buildings located across Europe.
