

Selected International Examples of Nearly Zero-Energy Buildings

NZEBs are here! Read about some interesting examples and what we have learnt in practice.

By Heike Erhorn-Kluttig (INIVE / Fraunhofer Institute for Building Physics)

Energy Efficiency in Public, Cooperative and Social Housing Within the Context of the Energy Union

The Energy Union is an ambitious initiative, but how does it affect energy in social housing?

The European portal for energy efficiency in buildings

Find resources | Post your materials | Share knowledge...

The interactive BUILD UP web portal of the European Commission promotes the effective implementation of energy saving measures in buildings and offers free access to a wide range of information on best practices, technologies and legislation for energy reduction. Via www.buildup.eu, building professionals, public authorities and building occupants across Europe can easily share experiences, knowledge and best practices.
