EASME Sustainable Investment Forum

The Executive Agency for Small and Medium-sized Enterprises (EASME) holds the third event in the series of Sustainable Energy Investment Forums (SEIF) on 30 March 2017 in Brussels. The event will demonstrate that energy efficiency can be financed on a large scale through the mobilisation of private financing. It will display initiatives from the local, national and European level, most of them funded under the Horizon 2020 Energy Efficiency programme. [Read more](#)
