National Programmes to Stimulate the Energy Efficiency Market

efficiency measures.

To ensure that the building sector can take full advantage of the opportunities Nearly Zero-Energy Buildings (NZEBS) present, EU Member States can step up their efforts by either creating optimal market conditions for energy efficiency and/or by financially supporting energy

The European portal for energy efficiency in buildings

Find resources | Post your materials | Share knowledge...

The interactive BUILD UP web portal of the **European Commission** promotes the effective implementation of energy saving measures in buildings and offers free access to a wide range of information on **best practices, technologies and legislation for energy reduction**. Via www.buildup.eu, building professionals, public authorities and building occupants across Europe can **easily share** experiences, knowledge and best practices.
